

Palantir AIP Bootcamp ↘

Hundreds of participants are taking part in AIP Bootcamps. These intensive, hands-on-keyboard sessions allow new and existing customers to go from zero to use case in one to five days.

AIP Bootcamps are running across the U.S., Europe, Asia, and Latin America.

01 // OVERVIEW

AIP Bootcamps, whether single or multi-day, provide an opportunity to experience Generative AI through use cases relevant to your business. You'll build live alongside Palantir engineers and AI specialists, all working toward the common goal of deploying operational AI to solve your hardest problems.

02 // OUTCOMES

1/ Build Your AI Intuition

Participate in an interactive overview of large language models and Generative AI capabilities in the context of your enterprise.

2/ Hands on Keyboard

Engage in a combination of demos, intensive hands-on-keyboard sessions, and group discussions to experience AIP first-hand.

3/ Develop Use Cases & Tactical Implementation Plan

Configure and deploy initial use cases and prepare to onboard and train users for implementation of the MVP.
