ASIA

# Global summit for the entire industry

## Building up a Reputation for an Excellent Brand in 15 Years

ComVac ASIA celebrated the 15th birthday in 2021. Under a new theme of “Compressed Air, extend the POWER”, it attracted nearly 300 leading companies of Compressed Air, Parts and Components of Compressor, Compressors, Post-processing Equipment for Compressed Air, Lubricants. To express gratitude for exhibitors, visitors and industrial associations’ full support in the past 15 years, the organizer planned and held an Award Presentation on site and displayed considerably pictures and stories about the history of ComVac ASIA in the thematic zone in memory of the 15th anniversary. Meanwhile, more than 10 exciting lectures on special topics and the release of new products took the audience to explore new orientations of the industry.

**Intelligent Manufacturing:** With the progress of national Industry 4.0 strategy and the integration of “Industrialization and Informatization” development, intellectualization and personalization will be an inevitable trend for the R&D and manufacturing of compressors. Highlighting the intellectualization positioning and accelerating the technological innovation development, enterprises will gather together to exchange thoughts on specific intelligent manufacturing solutions in line with their industrial characteristics, corporate strategic goals and their respective development.

**Energy-saving and efficiency:** Nowadays, compressor manufacturers are giving extra attention to highly efficient and energy saving products as well as eliminating backward production capacity. It is more important to use energy effects by making the best of modern control technology. ComVac ASIA 2022 will continuously discuss highly efficient energy-saving solutions for compressors from multiple aspects and dimensions, covering the optimization of the complete machine, air system assessment and system energy-saving, and pushing the compressors to stride towards the era of “Smart Manufacturing”.

**Scientific and environmental protection:** Following the trend of “low-carbon and environmental protection”, Chinese industries such as mining, metallurgy, machinery manufacturing, pharmaceuticals, F&B, textile, petrochemical and others witness a fast growth. They expedite their efforts to eliminate backward production capacity and high energy consumption equipment and update to high added-value compressors, so as to further create development opportunities for helical-lobe compressors. At ComVac ASIA, participants can actively explore and discuss such topics as how to scientifically reduce production energy consumption and pollution and how to improve the production process.

## Big names in past shows

BAOSI, AtlasCopco, GardnerDenver, Fusheng, Hitachi, KOBELCO, IHI-Sullar, Stronix, ANESTIWATA, Hanbell, Kaishan, Bolaite, Screw, Deman, Baldor-Tech, Torin, KANGPUSI, Unitedosd, Mattel, Quincy, Bauer, BOGE, MANN+HUMMEL, Ecoair, NAILI, Sullar, Moair, Pneumatech, Lida, ZHIGAO, Honest, EAST ASIA, Huade, Success, DESRAN, Denair, AUGUST, Total, HengDe, Kelin Aier, Wan Beardsley, Liutech, VMC, Sanfam, Xinlei, HONGRIJIA, LANFOKA, Granklingroup, DMG, Nankou, GAOLING, SEIZE, HIGH AIR, DHH, Turbo-Tech, Leadway, Hande, OFAC, HANKS, CHANUN, GAIRS, LiYang, WALLBOGE, Airtech, Apureda, Aerodynamic, Fu promise air, DREAM, Epsea, Synnex, Mogulinker, CIGU.....

**252**  
exhibitors

**>82%**  
of visitors have direct or indirect influence on equipment purchasing

nearly **20,000**  
sqm Show scale

# Efficient networking and demonstration of innovations

## Vistor industries

Automobile Manufacturing	13%
Petro chemistry	10%
Metallurgy	5%
Construction machinery	53%
Pharmaceutical and Medical	6%
Food/Beverage	5%
Rail Transit	4%
Packaging / Printing	5%
Aerospace & Aviation Manufacturing	4%
Textile machinery	8%
Oceaneering / Shipbuilding	3%
Energy/Hydropower / Thermal power	9%
Refrigeration / Heating	12%
Construction / Building Materials	4%
Environmental science and technology / Environmental engineerin	12%
Others	12%

■ Exhibition space (sqm)      ■ No. of exhibitors

\*Due to multiple choices, the total percentage is beyond 100%.

**XIAMEN EAST ASIA MACHINERY INDUSTRIAL CO.Ltd.**  
**General Manager Han Wenhao**

Firstly, congratulations to a successful ComVac ASIA in 2021. This excellent show gathered together elites from global air compressor industry. XIAMEN EAST ASIA MACHINERY INDUSTRIAL CO.Ltd. displayed an enriched set of exhibits this year under several core themes for the ZS and ZW series of oil-less air compressor, the GV series of dry-style screw vacuum pump, the ZBS series of crew blower and ZTB series of centrifugal blower, providing users with a novel and shocking experience and gaining attention and fondness of friends from all walks of life. At the exhibition, XIAMEN EAST ASIA MACHINERY INDUSTRIAL CO.Ltd. felt the unremitting innovative motive of the industry. It is in this atmosphere that the industry of air compressor has been making innovation and climbing up for another summit. XIAMEN EAST ASIA MACHINERY INDUSTRIAL CO.Ltd. will stay true to its original intention in pursuit of innovation and bring new products and technologies as well as a fully novel experience to clients in 2022. Finally, thanks to the organizer for the tremendous efforts in organizing this successful show. Wish ComVac ASIA further progress. Looking forward to meeting you at ComVac ASIA 2022!

**Gardner Denver**  
**Sales Manager Peter Xu**

A new round of infection before the opening of ComVac ASIA made us so worried. However, that immediately dissipated when we saw so many professional visitors engaging in high-quality exchanges. This comes down to three factors: 1. The greatness and prosperity of our motherland as well as a prospering economy and manufacturing; 2. Considerate organization and professional influence of ComVac ASIA; 3. The debut of Gardner Denver after its merge with Ingersoll Rand drew wide and enthusiastic attention from the industry. Endless streams of visitors to the booth of Gardner Denver helped us deeply feel market's high expectation for Gardner Denver. This year, we launched the GDK series of air compressor which is widely praised by the market. Next, we will keep up with the times by launching new products to satisfy clients' higher requirements. Wish ComVac ASIA a better future. See you in 2022!

**Compressed Air**

- Air compressor
- Processing compressor
- Special compressor
- Parts and components of compressor
- Postprocessing equipments
- Lubricants and related equipments

**Vacuum Technology**

- Vacuum pumps
- Vacuum valves and accessories
- Vacuum measurement and calibration instruments, gauges and vacuum leak detector device
- Vacuum application equipment
- Vacuum materials, vacuum pump oil and vacuum engineering equipment

**Jiangsu Jianghai Lubrication & Hydraulic Equipment**  
**Mr. Wang**

We are specializing in lubrication equipment which needs pumps, motors, coolers and power accumulators. Every year we want to learn about new technologies. Recently, innovations are abundant in oil purifiers, instruments and monitoring products. We hope to know more about relevant producers.

**Zhejiang Zhongzhi Pharmaceutical Technology Co., LTD**  
**Mr. Zhang**

This is the first time for us to be invited to attend ComVac ASIA. We had a very fruitful journey, better awareness of different types of air compressors, and clearer concepts of auxiliary equipment. Supportive equipment in urgent need was found here. One thing in particular is a lecturer that I attended, it really fits my position. What a happy surprise! This fully proves that the organizer has made considerate arrangements and designs of the exhibition.

**Ouryao**  
**Mr. Jiao**

This is the 4th consecutive year for Ouryao to cooperate with ComVac ASIA in the form of organizing a delegation. As the co-founder of Ouryao, I've been part of the organization of conference and training for 4 consecutive sessions, and witnessed the booming international compressor exhibition and rapid increase of its popularity in pharmaceutical industry. In spite of the pandemic this year, training onsite still had a full house and the exhibition was so crowded. I look forward to the next exhibition with more new products, technologies and applications. Wish ComVac ASIA become better and better. And wish the whole industry a rapid warm-up after the pandemic.

# Setting the stage for tomorrow's trends

## The largest exhibition scale in history:

As the iconic trade fair for compressed air and vacuum technology industry, this year ComVac ASIA attracted nearly 300 exhibitors including AtlasCopco, EAST ASIA, GardnerDenver, BAOSI, STRONIX, Baldor-Tech, SCREW, HANBELL, Deman, BAUER, ECOAIR, FUCHS, Sigmar, ZHIGAO, TURBO-TECH, HONEST, LIDA, GAIRS, KANGPUSI, Granklingroup, DHH, XINLEI, HIGH AIR, DENAIR, AUGUST, DMG, Nankou, JinTongLing, TURBOCOMP, ZHONGLI, DREAM, CHANUN, FU promic air, EPSEA, Moair, TAITIAN, ZHONGHAI, JINHUI, SUPERMAN, SUNSOURCE, LANFOKA, Yuanmei, HongRiJia, Sanfam, OUDE-MAN, Jiuzhou, LEGO, Synnex, Huayiturbo, SMEATON and other famous compressor enterprises.

### “ComVac ASIA 15th Anniversary Theme Forum”

The concurrently held compressor manufacturing forums were also the illuminated part of the show. In order to thank exhibitors

for their support, the 15th Anniversary Award Ceremony was held before the theme forum. Nearly 30 enterprise representatives came to the stage to accept the award, representatives from over a dozen companies delivered speeches about their new products and new technologies. Among the forums, "Quality Management of Pharmaceutical Clean Workshop and Sterilization Control of Environmental Space Forum" organized by Ouryao Pharmaceutical Technology, got special attentions, it brought the audiences of pharmaceutical industry eye-opening lectures.

Nearly 90 summit forums, technical seminars and new product press conferences were concurrently held, rendering visitors a grand event of intelligent manufacturing. The onsite events included Smart and Sustainable Solutions Forum Powered by VDMA, Fluid Technology Zone & Seminar, China Machinery Industry Quality Summit, CeMAT ASIA Innovation Salon, China International Mobile Robot (AGV/AMR) Industry, China Smart Logistics Lecture. This year, PTC ASIA also organized visits to the plants of two famous hydraulic enterprises, ATOS and HANSA-FLEX, to see their products and technologies and exchange ideas.

## ➔ ComVac ASIA 2022 Pricing (CNY/per sqm)

Standard Pricing		
Raw Space in Zone	A	2,260
	B	1,540
	C	1,231

Optional Choice	
Shell Scheme	250
Upgrade Shell Scheme	390

- Excluding 6% VAT.
- Total shell scheme stand fee = (raw space fee + additional fee of optional choice) x size
- Minimum size for raw space is 18 sqm; Minimum size for shell scheme is 9 sqm.
