CeMAT ASIA 2020

International trade show for Materials Handling, Automation Technology, Transport Systems and Logistics

3-6 November 2020
Shanghai New International Expo Centre (SNIEC) • CHINA

www.cemat-asia.com
After four action-packed days, the industrial mega-show organized by Deutsche Messe AG, Hannover Milano Fairs Shanghai and the Chinese partners rounded off on 26 October at the Shanghai New International Expo Centre. Themed with “Smart Logistics”, CeMAT ASIA 2019 welcomed more than 800 notable enterprises from all over the world at a total display area of over 85,000 sqm. The number of visitors significantly increased this year, reaching 142,975 with the remarkable growth rate of 42.1% compared with 2018, which consolidated the shows’ position as the leading driver for intelligent manufacturing.

Exhibition Overview:

In 2019, CeMAT ASIA celebrated its 20th anniversary. The two-decade development has ascended the show to the world’s second largest logistics equipment exhibition. CeMAT ASIA also made important contributions to the development of China's and even the global logistics industry by extensively enhancing the direct communication between enterprises and customers, and inspiring innovation in the market competition.
Dr. Jochen Koeckler,
Chairman of the Managing Board, Deutsche Messe AG

The show’s figures strongly prove that it is one of the most high-end industrial business platform in Asia. It is our honor that we are mostly satisfied by our participants. China is standing at a new starting point of the development of intelligent manufacturing, which provides more opportunities and markets for global manufactures. We believe that this show is the optimum place for global counterparts to better understand the industry in China and expand the business cooperation.

Dr. Jens Hardenacke,
Global SVP and China MD of Dematic

As an old friend of CeMAT ASIA, Dematic values every chance to participate in the exhibition. This year, for the first time, Dematic took part in CeMAT ASIA jointly with KION’s Linde and Baoli. Together, we built the largest booth. During the exhibition, Dematic got access to a lot of quality customers, learnt their needs and suggestions first hand, and further deepened our service localization and technical innovation. It has proved a fruitful exhibition. We wish CeMAT ASIA will continue to be brilliant next year and become better and better!

Kaan Guclu,
Managing Director China of SSI SCHAEFER

CeMAT ASIA 2019 has reached our expectations in regards to both the visitors’ volume and the effect, in which we are more than pleased about it. This exhibition provides not only a platform for SCHAEFER to showcase the world’s advanced logistics technology to Chinese users, but also a bridge to connect and communicate with each other among the industry. Wish CeMAT ASIA better and better!
Visitor Testimonials

Miss Zhang, H&M:

"Wonderful programs offered at the fair have brought us unusual cutting-edge information, which perfectly interpreted the slogan -- Technology drives the future! CeMAT ASIA brings technical innovations and breakthroughs to us and enables our services to better adapt to fast social development. We have harvested a lot at this year’s fair. Thank you very much!"

Mr. Zhang, Shanghai M&G Stationery Inc.:

"We have witnessed that CeMAT ASIA grewed into an industry gathering of professional and market value in domestic logistics industry, gathering today's logistics industry elites. CeMAT ASIA 2020 we'll be there or be square."

Mr. Teng, China Pharmaceutical Group Shanghai Medical Instrument Co., Ltd.:

"We would like to thank CeMAT ASIA for giving us more opportunities to contact more industrial suppliers so that we could further reach long-term cooperation agreements and boost corporate development. We benefit a lot from this exhibition!"

Mr. Sun, Cargill China Grain & Oilseeds:

“CeMAT ASIA is a logistics equipment exhibition with considerable scale and influence in Asia. The whole exhibition runs through the concept of economy, high efficiency and low cost, enabling us to experience the power of science and technology, the new mode of systematic logistics management, and the mechanical equipment close to the actual logistics operation. The exhibition will lead the healthy, stable and efficient development of domestic logistics.”

Mr. Bao, Hangzhou Lianhua Huashang Group Co., Ltd.:

“CeMAT ASIA provides the manufacturers and clients a platform for communication and cooperation through the exhibition. This year, we see more advanced technology and equipment and more perfect technology application scenarios of existing partners again. Combined with the actual application scenarios on-site, we can know some puzzles in the process of industry development and technology application, bringing technological innovations and breakthroughs to the company.”

Value Realization:
A WIN-WIN Platform for All Participants

Offline Courses and Activities:

- Afternoon Tea · Shenzhen
- CeMAT TV Online Courses
- CeMAT ASIA Committee Meeting · Beijing

Concurrently Held Forum and Activities:

- 2019 Intelligent Logistics Development Forum
- Innovation Salon
- Intelligent Manufacturing Competition 2019

Synergies with Concurrent Shows:

CeMAT ASIA
ComVac ASIA
PTC ASIA
E-PACK TECH
ICCEASIA
FBC

The development of new technological solutions specifically designed for E-commerce channel is a trend among all European manufacturers of machines and technologies for packaging, and E-PACK TECH by Ipak Ima aims to give an opportunity to get into the Chinese market, within the already established CeMAT ASIA.
CeMAT ASIA Innovation Salon 2020 will continue to join hands with partners to lead the trend of logistics industry, promote exchanges among industry peers and drive the development of logistics enterprises. Currently, the concepts like “Industry 4.0” and “Made in China 2025” have been implemented since being proposed. The logistics industry stay closely to the theme of CeMAT ASIA 2020’s Innovation Salon “Smart Logistics”, and invite more Party As and industry experts to participate in discussions on hot topics ranging from the future worldwide logistics, fresh food, intelligent manufacturing, home logistics to vehicle and parts logistics, among others. Other highlights include master talks, brainstorming activities and so on.

New Media Platform:
From logistics, manufacturing to business trading enterprises, CeMAT ASIA invites all related end users to visit the show.
