CeMAT is recognised around the world for being the leading event for the intralogistics and materials handling industries. CeMAT is the industry’s only chance to see firsthand the latest innovations, technologies and trends.

After its launch in 2015, CeMAT AUSTRALIA has quickly established itself as a market leader and continues to build on its success into 2020. With a focus on innovation & industry 4.0, CeMAT AUSTRALIA 2020 will provide an ideal platform for you to showcase your products and services.
WHY EXHIBIT

- CeMAT Australia is the only show in Australia dedicated to the technology of warehousing, materials handling, intralogistics and supply chain.
- Network with other industry leaders, competitors and key influencers.
- Meet with elusive, difficult to reach decision makers from key industries: Retail, ecommerce, manufacturing, pharmaceutical, FMCG, supply chain management.
- Contribute to, and learn, from the innovation-led learning program.

I would urge anyone thinking of exhibiting at CeMAT 2020 to stop thinking and confirm your spot now, as it is, without doubt a great show, well organised and marketed to ensure the right people attend. You will reap the rewards.
