Deutsche Messe constellar
CeMAT is recognised around the world for being the leading event for the intralogistics and materials handling industries.

CeMAT is the industry’s only chance to see firsthand the latest innovations, technologies and trends.

CeMAT is back in South East Asia. Following on successful events, pre-pandemic in Jakarta and Mumbai, CeMAT has now found its new home in Singapore.

As the International gateway to APAC, Singapore is a recognised global logistics hub.

With a focus on innovation and industry 4.0, CeMAT SE Asia will provide an ideal platform for you to showcase your products and services.
CeMAT SE Asia is the only show in Singapore dedicated to the technology of warehousing, materials handling, intralogistics and supply chain.

- Network with other industry leaders, competitors and key influencers.

- Meet with elusive, difficult to reach decision makers from key industries:
  - Retail
  - eCommerce
  - Manufacturing
  - Pharmaceutical
  - FMCG
  - Supply Chain Management.

- Contribute to, and learn, from the innovation-led learning program.

---

I would urge anyone thinking of exhibiting at CeMAT to stop thinking and confirm your spot now, as it is, without doubt a great show, well organised and marketed to ensure the right people attend. You will reap the rewards.

It looks like CeMAT was a great success with a wide range of people attending. Knapp showcased our shuttle systems and GTP workstations and I believe we have received a number of enquiries that will lead to opportunities to work with potential clients.
